

Payment-change callback log

Use this whenever wire, ACH, check-delivery, or other payment instructions change. Keep the payment on hold until the independent verification and approval are recorded.

HOLD

Do not reply to the message or call a number contained in the change request. Use a known-good number already held in the matter file, engagement record, or approved payee record. If the trusted contact is unavailable, keep the payment on hold and escalate.

1. Request received

Matter or internal reference

Date and time received

Payee or recipient

Amount

Request received from and channel

Payment held by and time

What changed

Reason given for change

2. Known-good contact source

☐ Matter or engagement record	☐ Approved payee or vendor record	☐ Previously verified contact
☐ Firm-controlled directory	☐ In-person verification	☐ Other independent source

Known-good number or in-person location

Where that contact information was obtained

3. Callback and verification

Person reached and role

Callback date and time

Verifier name

Result: confirmed, rejected, or unresolved

What was independently confirmed

Exception or discrepancy found

4. Approval and disposition

☐ Release approved	☐ Change rejected	☐ Payment remains on hold	☐ Escalated
---	--	--	------------------------------------

Second approver name and role

Approval date and time

Final action taken

Evidence or attachment location

RECORDING RULE

Do not write full bank-account or routing numbers on this form. Store sensitive payment details only in the firm's approved system. Keep this log with the matter or payment record according to the firm's retention policy.

This blank form is a general fraud-control resource. Adapt it to the firm's payment authority, trust-account procedures, client obligations, insurance terms, and legal advice.
